Emne: Hard Rain project Mark Edwards/Bob Dylan/UNEP

Kære Steen Gade

Som opfølgning på vores samtale i dag, sender jeg dig hermed som aftalt en anmodning fra Mark Edwards.

Sagen handler i korthed om muligheden for vise Mark Edwards Hard Rain dokumentar for medlemmerne af det danske folketing eller visse af folketingets udvalg.

Præsentationen er bygget omkring teksten til Bob Dylan's a Hard Rain's A-Gonna Fall og handler om de mange globale problemer verden står overfor. For yderligere om projektet se [www.hardrainproject.com](http://www.hardrainproject.com)

*"The Hard Rain documentary presentation is a personal account of the environmental journey Mark Edwards began in 1969. The presentation opens with Bob Dylan's A Hard Rain's A-Gonna Fall, with the exhibition pictures projected as the song plays. The presentation goes on to explore the state of the world and its people, and brings alive the policies, technologies and lifestyle changes we need to adopt to reinvent the modern world so it's compatible with nature.*

*The presentation lasts 50 minutes and is illustrated with over 200 striking images from around the world. It has been shown to companies and corporations, parliaments and public meetings on every continent, to IPCC scientists, and at the United Nations headquarters in New York."*

Hard Rain projektet indgår i UNEP's udstilling på Magasin Metro Plads i København under COP 15, UNEP er også 'founding Partner' af Hard Rain.

Jeg står naturligvis til rådighed for evt. spørgsmål og afklaringer.

Håber at hører fra dig snarest.

Mvh.

Mette Annelie
