Dear Damien and Barry,

Attached is our proposal for the draft decision. The decision in it entirety has as well a section dealing with the background, a section dealing with process Capability to treat HCB in Australia and on international regulation.

We have worked on the langue in the paragraph dealing with the Danish decision, so that we make it clear that we will not raise any objections to the shipment (which we could do in accordance to article 11 in regulation 1013/2006/EU) - We have taken all the relevant objections possibilities and instead of making a reference to the by number, we have written them out in full text as elements which we have considered (and do find ok).

I hope this can be understood.

Do you have any possibility to look at this and to indicate to me (before Barry leaves) if this can be used -  
Thank you.

I will be in tomorrow morning, so please do not hesitate to call me if you would like to discuss the proposal.  
Either by cell phone +45 29 68 41 38 or after 8.30 by +45 7254 4321.

Best regards  
Lone
