Dear Folketinget!

<http://romabelarus.blogspot.com/>

Unique people!!!

I have received email from EU Roma policy coalition. The contents of this letter were very poor and not interesting but what really draws my attention is a person who is leading EU Roma policy. It is Mr. David Mark. David Mark, young lad. I have not idea where he is come from but there point is that now Mr. David Mark is determining EU Roma policy. You know, that is mean that all EU Roma policy is in his hands now. There are 8 millions Roma people are living in EU and all their life's are in hands of Mr. David Mark?! Roma people from 27 member states are in possession of David Marks will. It is difficult to imagine how powerful David Mark is?! That's means that now David Mark decide on us. Not Roma people but David Mark is. I'm sure that 99.99 percents of Roma population doesn't have imagination how dose David Mark looks like. How comes that so big amount of responsibilities are concentrated in David Marks hand?! So big obligations... Was David Mark chosen? Was he appointed? Appointed by whom? Why David Mark? Who was in jury when question about David Mark have been raised? Why Roma communities haven't been involved in David Marks election process? Nevertheless, I want to emphases that now David Mark is decision making person. Not you!!!

Valery Novoselsky, well- known person among Roma community. Good guy, who are collection information about Roma community, about you and me, about all of us. Have you ever asked Mr. Valery Novoselski to do it?! Me neither. I've never met Mr. Valery Novoselsky, thanks the Jesus, I have no idea why dose he doing this job. Is he Roma? Not. Was he elected? Was he appointed? Appointed by whom? Why Valery Novoselsky? Who was in jury when question about Valery Novoselsky have been raised? Why Roma communities haven't been involved in Valery Novoselsky election process? Nevertheless, I want to emphases that now Valery Novoselsky is person in charge of your database and how is he going to use your information is his business. Not yours!!!

I have brought 2 examples, I am not going to provide you with answers. Something very strange happening with us, Romale! Something extraordinary! Something happening with us but we are, Roma people, somewhere aside from this process. We are not involved in Roma movement. We are Roma but we are not involved in?! We are unique people, unfortunately.

That is good examples of all George Soros programs.

Because, tomorrow someone else will come to Roma house and start to teach us how to breath, what to eat, what to say. Someone we've never met and have no idea how dose he looks like. It is not funny, it's awful. It is related to all Roma directly. That's the question. Because today George Soros came to determine EU Roma policy instead of us and we were sleeping. George Soros came to collect information (our names, email, phone) and Roma were sleeping. What will come to his mind tomorrow? Roma people need your protection from hungry George Soros.

Kalinin Nicolas
