Press Release

For Immediate Release

Issued: October, 31 2014

21st Space Wing awards contract for the operation and maintenance of Thule AB to Exelis Services A/S from Denmark

The 21st Space Wing, headquartered at Peterson AFB (PAFB), Colorado, has awarded a contract for the operation and maintenance of Thule AB, Greenland, home to the Air Force's northernmost Air Base, to Exelis Services A/S from the Kingdom of Denmark. Every 7 to 10 years the 21 SW Contracting Squadron issues an industry-wide, competitive solicitation to provide a contract for essential services to house, feed, and care for our Airmen. Each proposal received was reviewed according to the solicitation requirements, and we selected the contractor who will provide the best value within our guidelines. We value our longstanding relationship with the Kingdom of Denmark and look forward to continuing our mission at Thule AB in partnership with Exelis Services A/S.

21. Space Wing med hovedkvarter på Peterson Air Force Base (PAFB) i Colorado har tildelt Exelis Services A/S i Kongeriget Danmark kontrakten på at drive og vedligeholde Thule Air Base (AB) i Grønland, hvor det amerikanske luftvåbens nordligste flybase er hjemmehørende. Hvert 7. til 10. år udbyder 21. SW Contracting Squadron en kontrakt på kost, logi og andre fornødenheden for det militære personel til hele industrisektoren. Hvert tilbud blev gennemgået i overensstemmelse med udbudskravene, og vi har valgt den leverandør, der har givet det bedste tilbud ud fra vore retningslinjer. Vi sætter vores langvarige forhold til Kongeriget Danmark meget højt og ser frem til fortsat at løse vore opgaver på Thule AB i samarbejde med Exelis Services A/S.
