Emne: WEC INVITATION: Spotlight on the critical global and Danish energy issues

2015 World Energy Issues Monitor

INVITATION

Spotlight on the critical global and Danish energy issues

The 2015 World Energy Issues Monitor

WEC Denmark invites to presentation of the 2015 World Energy Issues Monitor, which provides an actual assessment of the issues impacting the global and regional energy sector based on the views of the World Energy Council's energy leadership community. The report identifies the key uncertainties while highlighting the areas where action is most required to enable the sustainable supply and use of energy.

The presentation of the report will be followed by Danish views on energy price volatility and energy- and climate policy.

The programme will conclude with a discussion between the speakers and the audience.

Folketingets medlemmer deltager uden betaling af gebyr.
