

# Translation technology in the Norwegian Public Sector

---

Senior Advisor Sarah Hails Gjelsten  
Agency for Public Management and e-Government (Difi), Norway.

# CEF Digital Infrastructure

e-Delivery

e-ID

e-Signature

e-Invoicing

- ODR (Online Dispute Resolution)
- BRIS (Business Registers Interconnection System)
- EESSI (Electronic Exchange of Social Security Information)
- eJustice Portal
- eHealth
- Safer Internet
- Cyber Security
- e-Procurement
- Public Open Data
- Europeana

# Needs

- Cut costs
- Multilingual information production
- Cross-border digital services
- Data collection for strengthening Norwegian in translation technology

## Kartlegging av behovet for automatisk oversettelse i statlig sektor

*Utarbeidet for Kommunal- og moderniseringsdepartementet*

*OE-rapport 2016-15*

## Coordination?

Language Council of Norway  
«Språkrådet»

Norwegian Language Bank  
«Språkbanken»

Difi, with others

# Challenges

# Online Dispute Resolution (ODR)

- Cheaper, faster, out-of court claims process
- Dependent on CEF e-Translation
- Project started for data collection in consumer domain – pilot for future data collection projects

# Examples of other language technology use

Norwegian Parliament

Norwegian health sector

# Support

CEF eTranslation call

28 June – 28 November 2017

Data collection, implementation projects

Public and private organisations

2 or more countries
