## Fehmarnbelt Days 2018 is getting close

Fehmarnbelt Days in Malmö, 28-29 of May, is less than a month away. We look forward to a conference filled with interesting meetings, new ideas, and lively discussions about opportunities of the emerging Fehmarnbelt Region. All about Tomorrow's connections.

The second day of the conference is filled with thematic seminars and workshops. Some of the questions that you have a chance to discuss are;

*How will the opening of Fehmarnbelt influence transport and travel in northern Europe?*

*What recent and future trends can be seen in the transport development of the Fehmarnbelt region?*

*What initiatives and policies can help local businesses achieve a successful digital transformation?*

*How can we drive the green growth agenda forward in the region?*

## Fehmarn Belt Fixed Link

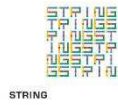

The Fehmarnbelt is the strait between Rödby/Denmark and Puttgarden/Germany. The planned Fehmarnbelt Fixed Link will create a region of nine million inhabitants once it opens in 2028. For Europe as a whole, the Fehmarnbelt Link is one of the most important pieces of the logistical puzzle and an important part of the Scandinavian-Mediterranean Corridor. The link creates opportunities for new jobs, research and culture. We are already creating a region in the making – for living and working!
