

My Dear Colleague,

Turkish Parliament which has been particularly the center of democracy as well as Turkish Democracy were assaulted by the FETÖ Terrorist Organization on 15th July.

We have been struggling along with the whole political parties represented in Turkish Parliament and civil society against this coup attempt since that day. In this stage, we are inviting all parliamentarians believing democracy, their political parties, and also their respective parliaments to give the necessary support to the democratic struggle of Turkey.

I do hope that those defending democracy, universal values, rule of law and human rights will not leave us alone in this process.

What is expected today is that primarily OSCE PA and members of all international organizations take sides with Turkey in the democracy and freedom struggle of my country against anti-democratic attempts.

Mr. Vedat BILGIN

Head of Turkish Delegation to OSCE PA
