

## Annex to Derogation Report 2022

April 27 2023

### Correction sheet for the Danish derogation report 2021

The following describes a correction of the Danish derogation report from 2021. The Danish Environmental Protection Agency was informed by the Danish Agricultural Agency of an error in the compiled data from fertilizer accounts from the period 2019/2020. Instead of using the reported amount of consumed phosphor from chemical fertilizers, the amount of phosphor from chemical fertilizers which had been bought was used when calculating the average P-ceiling, kg P/ha agricultural area and kg P/ha harmony area.

The use of the bought amount of phosphor has resulted in a seemingly higher consumption of phosphor reported for the period 2019/2020 than had been used by Danish farmers. **Table 1.1** shows the amount originally reported to the European Commission in 2021, while **Table 1.2** shows the corrected amounts. According to the Danish Agricultural Agency, this discrepancy has not had any consequences regarding the control of or sanctions for Danish farmers.

#### **Table 1.1: Compiled data from fertilizer accounts 2019/2020 (rounded numbers)**

#### **The amounts originally reported to the European Commission.**

	<b>Produced P (tons)</b>	<b>Used P (tons)</b>
Poultry/fur	4,700	
Finishers	10,300	
Sows and piglets	8,600	
Cattle (non-derogation)	10,900	
Cattle (derogation)	7,300	
<b>Manure – Total</b>	<b>41,800</b>	<b>41,100</b>
Waste and other P	3,600	3,300
Manure + waste		44,400
Chemical fertilizers		17,600
<b>Used P – Total</b>		<b>62,000</b>

  

	<b>Mio. ha</b>
Agricultural area	2,600
Harmony area	2,400

  

<b>Average P-ceiling in 2019/2020</b>	<b>33.5</b>
<b>kg P/ha agricultural area</b>	<b>24.1</b>
<b>kg P/ha harmony area</b>	<b>25.8</b>

**Table 1.2: Compiled data from fertilizer accounts 2019/2020 (rounded numbers)**

**The corrected amount.**

	<b>Produced P (tons)</b>	<b>Used P (tons)</b>
Poultry/fur	4,700	
Finishers	10,300	
Sows and piglets	8,600	
Cattle (non-derogation)	10,900	
Cattle (derogation)	7,300	
<b>Manure – Total</b>	<b>41,800</b>	<b>41,100</b>
Waste and other P	3,600	3,300
Manure + waste		44,400
Chemical fertilizers		16,300
<b>Used P – Total</b>		<b>60,700</b>

  

	<b>Mio. ha</b>
Agricultural area	2,600
Harmony area	2,400

  

<b>Average P-ceiling in 2019/2020</b>	<b>33.6</b>
<b>kg P/ha agricultural area</b>	<b>23.6</b>
kg P/ha harmony area	25.3
