The three training locations

Three training locations – one goal...

Inter-company courses

Course operation:

- Course center with 15 classrooms
 - Setup similar to patient rooms in hospital
- 140 teachers/instructors
- 2'500 students
 - Health and Social Care Worker, Federal Certificate of Vocational Education and Training
 - Healthcare Assistant, Federal Diploma of Vocational Education and Training

Inter-company courses

Possibilities:

- “The simulated emergency”
- Training of skills and techniques out of the company (out of “live situation”)
- Simulation of situations of the real working life
- Self experience
- Reflection

Inter-company courses

Goals:

- Improvement of theory – practice – theory – transfer
- Cross-linking of theory and practice to improve vocational action competence
- “Bridge” between school (theory) and company (practice)
