Emne: Invitation - Open Source and the European Union event

Dear Committee Members,

On behalf of Astor Nummelin Carlberg, Executive Director at OpenForum Europe, I am honoured to invite you to our upcoming event, "[Open Source and the European Union](#)", taking place on the afternoon of 23 October 2025 at Folketinget, Christiansborg, Copenhagen.

The "**Open Source and the European Union**" event will bring Brussels-level discussions of open source policy and digital sovereignty directly to Copenhagen. This event will provide a unique opportunity for the local open source community to directly engage with EU and national policymakers to better understand policies that impact the Danish and European market.

This event is part of OFE Capital Series events, which are single-day, high-level policy gatherings dedicated to advancing open source policy priorities in alignment with the objectives of the member states holding the Presidency of the Council of the EU. You can register [here](#).

Should you require further information, please do not hesitate to contact us.

Yours sincerely,

Alvaro
