Emne: Return Zammi to her mother

I am writing to express my disgust and opposition to the removal of the Greenlandic baby Zammi from her mother Keira. Colonizing and stealing indigenous children go hand in hand, and you are continuing a legacy of trauma and pain for those that have been abused by the Denmark government for centuries. Now that new laws have been created around your testing policies for fit parents, more consideration should be applied to those you stole the children of in the past and reopening those cases. Shame on you and shame on Denmark. No more stolen children!
