

Packaging waste generated, by packaging material, EU, 2022

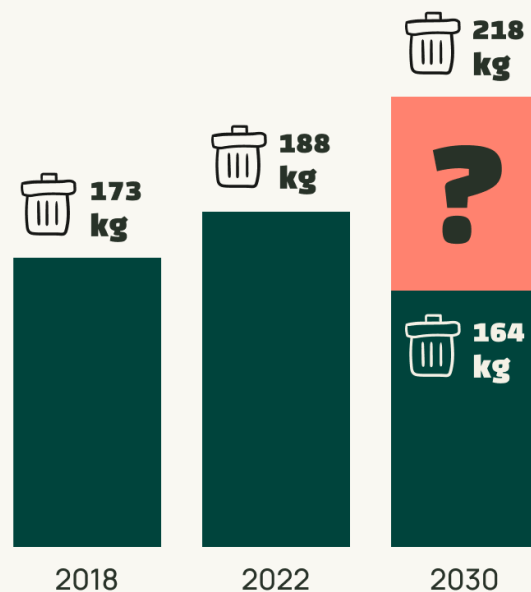

Denmark needs to reduce packaging waste from **188 kg** to **164kg** per capita by **2030**.

However, between 2018 and 2022, packaging waste increased by **8%** instead of decreasing.

Hvordan reducerer vi **emballageaffaldet** i Danmark?

Samtalesalon på Klimafolkemødet i Middelfart
📅 torsdag d. 28. august kl. 11:00-11:30

Deltagere

Melene Høj Mortensen,
